Problem Set 3

Collin DeVore

February 2023

Question 6

Part 1

How big was the insurance.csv file (once uncompressed)? (i.e. what was the output in 3(e)?)

The file is 5 megabytes

Part 2

How many lines did the CSV file have before doing the end-of-line (EOL) conversion? (see 3(g))

The CSV file had 0 lines before the conversion.

Part 3

How many lines did the CSV file have after doing the EOL conversion? (see 3(j))

The file now has 36,634 lines.
